Toll Free Service

EFFICIENCY
& EXPERTISE

BEST-IN-CLASS SERVICE

Our toll free origination services carry traffic originated by VoIP, cable, wireless, and traditional landlines. Our best-in-class services are driven by a fully redundant core, distributed across all of our switching sites throughout the country. The Impact Telecom network is engineered for carrier-grade performance with built-in redundancy, including our soft switches, core backbone routers, SS7 signaling lines and re-routing elements. We also support international toll free numbers and international tollfree origination.

NATIONWIDE CARRIER TRANSPORT NETWORK

Impact Telecom offers services over our own Feature Group D voice and next generation IP-based data network. The Impact Telecom transport network provides best-in-class services that are the result of a fully redundant core network of current equipment, with multiple connections to different bandwidth providers.
